

Save Nashville's Bells Bend

Encourage Growth In Nashville's Urban Core

- Citizens are working to establish a conservation community in the Bells Bend – Scottsboro area of Nashville, the city's last great rural area.
- The latest project that threatens this area is for a 6-lane bridge, high-rise hotel, 5000 condo units, four 50 acre corporate campuses, and retail development.
- Funds are being raised to pay for legal, public relations, economic analysis and other costs to defeat this project.
- The purpose is to establish an outdoor recreational and agricultural conservation district for all of Nashville and encourage progressive growth practices that replace green washing with smart growth in Nashville's urban core.

****To donate online:** <http://tinyurl.com/629ptp>
or mail check to: **PEER** (Enter on memo line: Bells Bend)
Tennessee PEER
4445 Pecan Valley Road
Nashville, TN 37218

****All Donations are Tax-Deductible**
PEER = Public Employees for Environmental Responsibility
For more information contact: Alicia Batson, 299-1661 or crackerlake@comcast.net
